Hello Jen!

I hope this email finds you well! I know I am six hours late, but I wanted to know if it was too late to submit my amendments. I only have two.

(2.4)New Policy: Encourage the growth of education and knowledge creation (such as lo'i restoration, water quality testing, marine biology, and authentic voluntourism) as an industry in coordination with known and well-respected cultural practitioners.

Amending Action Item 4.05: Through programming, marketing, and investment, assist the community to develop a food hub to help farmers and makers of value-added products with production and distribution in order to increase the number of locally made products bought and sold in the community.

I hope I am not too late!

Thank you for all your hard work on the Community Plan, I have enjoyed reviewing it!

Angela
