

Ready & Resilient Systems – proposed by Kai Nishiki

Transition from the use of wastewater injection wells to appropriate environmentally sound methods of wastewater disposal and promote beneficial use of wastewater effluent.(DEM)

Amend county regulations to allow for the use of greywater for approved purposes in West Maui.(work with DOH, ?)

Alert the public of dangerous road conditions, closures or disasters by implementing appropriate safety measures such as staging electronic signs on either side of the Pali, near DT Fleming Beach Park and Waihe'e to provide messaging and alerts to where updates can be found.

Identify and implement appropriate safety improvements such as guardrails, etc in improving Kahekili Hwy and Honoapi'ilani Hwy for use as an alternate route for West Maui during times of emergency. (DPW, coordinate with State DOT)

Identify and implement temporary safety measures such as signage, lane shifts, etc to alert the public of dangerous road conditions due to SLR and climate change.
