Your Testimony : I am an owner in Puamana for the past 15 years. I have been renting as a short term rental since we bought. Over 75% of the community rents to short term tenants and always have. My unit alone brought in 22,000 of taxes plus 12000 of property tax. That is 34,000 from one unit alone. This should pay for subsidies for moderate housing projects. Puamana should be refined to Hotel so the short term rentals can continue in the future. Thanks
