The beautiful beach and bay at Napili, with golden sands and aquamarine waters. The low rise (only 2 story) buildings at Napili makes it a quiet and relaxed tropical paradise.

I love my community because of our diverse community members, unique terrestrial and marine environment, Hawaiian history and culture and the small scale development seen in our humble small town.

Born and raised in Lahaina, the developing has increased in such numbers that its stripping the locals of our lands... I love the history and legacy that my ancestors left. Can we just boycott Hawaii?
